Men's Black Calf Oxfords, all leather, Regular \$6.50, sizes 6 to 10, special.....	4.25
Men's G.W.G. Molekin Pants, 30 to 44, pair....	2.95

## McCullough Bros.

### Mrs. J. F. Price To Address W.I.

The April meeting of the Champion Women's Institute will be held at the home of Mrs. D. Farmer on Tuesday the 14th inst. at 2:30 sharp. Mrs. J. F. Price of Calgary will be present and will speak on "Pioneer Homemaking." Mrs. Price is a very interesting as well as pleasing speaker and a large attendance of members and others is requested. The delegate's report of the District Conference will be given and members are reminded of the exchange of flower cuttings and paper patterns. Roll call will be answered with "money making suggestions." Refreshment convener Mrs. Cowell.

### Big Crowd Attends Easter Dance

The Easter dance under the auspices of the Community Hall Co., was a highly successful affair, not only from the dancers standpoint but also in the eyes of Yo Yo enthusiasts, Gordon Berger being judged the most expert of the latter class. The pony drawn for fell into the possession of Bobby Gardner, and the whole sub division was stirred as a consequence. The Len Davis orchestra supplied the music in their usual inimitable style to the entire satisfaction of everyone concerned. The financial result was decidedly satisfactory.

### Veteran of Royal Marines Dies in England

The funeral took place on Wednesday afternoon of Mr. William Wheeler, of Bradley Road England whose death occurred during last week end at the age of 74 years. The late Mr. Wheeler served for many years in the Royal Marines, retiring with the rank of Colour Sergeant, and was afterwards a recruiting sergeant, the last to be stationed in the Trowbridge district. He had been on pension for 30 years. Mrs. Wheeler pre-deceased her husband in 1913. There are five daughters and one son who survive. The youngest son, William Alfred, who was a bugler in the Royal Marines, lost his life in H.M.S. Hampshire in 1916—English Paper.

Mrs. Ed. Marshman of this district, is a daughter of Mr. Wheeler.

### Card of Thanks

Mrs. J. D. McDougall wishes to thank Mr. and Mrs. Stoddart, Mrs. Wm. McRae and the ladies Aid for flowers and the B.F.O. E. for card of sympathy, also Mr. and Mrs. Ulrich and Mrs. Harry Smith for assistance rendered, and many kind friends who called during her recent illness.

The Follies basketball team, en route from Calgary to Lethbridge, were the guests at dinner on Good Friday of Mrs. G. A. Orr, one of the players, Miss Stevenson, being a niece of Mrs. Orr's. The team must have been well fed as they won both games from Lethbridge.

Health lectures on Immunization will be given by Miss Conroy R.N. in the United church on Friday April 10th at 2 p.m. sponsored by the Champion W.I.

### McDougall Bulls Top Price List

Both A. S. and C. D. McDougall had animals placed in the prize winning classes and achieved satisfactory prices for their shorthorns at the recent spring show and sale held in Calgary. A. S. McDougall had the highest priced shorthorn bull sold this animal bringing \$305.00 while he averaged \$200.00 for three bulls sold in the class from eighteen to thirty-six months. In the class under eighteen months A. S. and C. D. McDougall sold three bulls each, realizing \$200.00 as high and an average of \$133.00.

### Baby Clinic Wed., April 22

A baby clinic will be held under the auspices of the Champion W.I. at the home of Mrs. F. C. Alcock on Wednesday April 22nd from 1 p.m. to 4 p.m. Miss Jones of the Dept. of Public Health will be the nurse in charge. Mothers in the community are invited to come and bring their babies and children up to six years of age for free health examination.

### Ladies' Aid Group Score Big Success

The Easter tea and bake sale held last Saturday, April 4th by members of the Ladies' Aid of the United church was well patronized. All kinds of home-made cakes, pies, rolls and candy were sold. Also gay Easter favors, bunnies, colored eggs, plants, slips and cut flowers. The luncheon was delicious and enjoyed by many, served by six charming young ladies, namely, Misses Williamson, Collins, Wise, McLean, Peters and Gill. Mrs. F. Wise was the successful convener ably assisted by Mesdames Cowell, Watkins, Ulrich, Caldwell and Smith. The sum of \$50.00 was realized from this affair. The convener wishes to thank all who contributed in any way to make this Easter tea and sale such a wonderful success.

The new grade connecting the village with the highway to the east was gravelled this week and in this direction at least we are practically on a gravelled road. It is to be hoped arrangements will be possible in the near future to complete connections to the southwest so that traffic to the elevators and through town to the highway will be satisfactory in all kinds of weather.

B. M. Roberts is now in the Vulcan hospital, where he was taken on Friday from Gye more by A. W. Jopling and W. F. Bozarth. It is understood he is doing as well as could be expected under the circumstances and when sufficiently recovered will go to the Keith sanitarium for an extended period.

A Conservative organization meeting will be held in the basement of the community hall at 2:30 on Saturday, April 11th. The chair will be taken by P. M. Patterson and the meeting will be addressed by outside speakers. A general attendance of Conservatives is requested.

## Champion Theatre

**Saturday Night, April 11th  
The Overland Telegraph**

TIM MCCOY—At his best in a great romance of the humming wires! "McCoY," on an outdoor drama, is like "Stealing" on silver. It means—crackling action, superb riding, dramatic surprise and romance. This latest McCoy triumph takes us out to the Western pioneer frontier, where the humming telegraph wires were keeping up almost with the procession of covered wagons. Indian raids, plot and counterplot, romance riding along—this picture has everything you want for an evening's entertainment!

Coming Next Thursday Nite, April 16th, and Every  
Second Thursday After

### TALKING PICTURES

The first talkie will be "FATHER'S SON" and the Capitol Theatre, Calgary, claims this as one of the best sound pictures of the year.

NOTE—"The Last of Mrs. Cheyne" is the feature for Sat., April 18.

## Van Brunt Press Drills

The most popular Drill ever used in the district.

### Van Brunt High Wheel Drill

Reduced in price from \$15 to \$30.

### Improved John Deere Disc Tiller

Always the Best, now better than ever.

### Viking Fanning Mills

Will insure  
Clean Seed.

### R. TYLER, Agent.

W. DIEMERT IN CHARGE

## Seeds! Seeds! Seeds!

Spring is just around the corner.

The Cut Worms, who thought it was Spring a month ago, all got frozen. So that worry is over.

Never before have we had such a good  
line up of good Seed, and all at  
Rock Bottom Prices, such as

Beans, Peas, Corn, Early Ohio  
and Irish Cobbler Spuds, etc., etc.

### Every Thing in Seeds

## CAMPBELL'S

"Where They All Go."

## THE Savoy Hotel Restaurant

Completely Overhauled and Redecorated  
UNDER HOTEL MANAGEMENT

Regular Meals will be Served at \$1.00 per day.

\$5.50 Meal Tickets for \$5.00.

Short Orders at Any Time until 8:30 p.m.

We believe the home cooked meals we will offer will be found satisfactory both as to cooking and service.

When next selecting a Restaurant, try the Savoy and tell us how you like it.

## THE CHAMPION CHRONICLE

S. N. Woodhull, Publisher.

Issued every Thursday morning from the office of publication at Champion, Alberta.

Subscription \$1.50 per year, payable in advance.

## ADVERTISING RATES

Legal advertisement, 15 cents per line for first insertion, 12 cents per line for each subsequent insertion.

Advertisements of Wanted, Lost, Found, Strayed, etc., not exceeding one inch, 50c cents for first insertion 75 cents for each subsequent insertion. Commercial rates on application.

THURSDAY, April 9, 1931

## NOTES AND COMMENT.

The director of publicity for the 100 per cent pool in Saskatchewan, in a letter issued to newspapers, states that the old pool debts will not be assigned; that there will be no disinclination in regard to the elevators the farmers may choose to deliver grain to, and that all the machinery of the present pool will be scrapped and a completely new system will be inaugurated (if it is so desired). The conclusion is forced by this letter that while the Alberta U.F.A. endorsed the Saskatchewan plan for a compulsory pool, that plan is even yet in embryo. In no instance does there appear to be any definite plan for this pool which could be accepted as conclusive, and different individuals are constructing an organization to meet circumstances as they develop. It must be admitted there is no justification for the statement that the compulsory pool will improve the situation outside the imagination of its promoters, and where this is based on the results obtained from the voluntary pool, the foundation can scarcely be considered satisfactory at the present time.

The wheat conference at Rome simply made the discovery that there is no apparent solution to the present difficulties of the wheat grower. There is too much wheat for the market to absorb and to all appearances this situation must wait for relief until nature intervenes with extensive crop failure or light yields over a great deal of the wheat acreage, at least. The United States experiment at the stabilization of grain prices does not recommend government interference in the way of a pruned price for wheat. Taxes promise to be high enough without the addition of the enormous amount that would be required to pay the wheat grower 70c per bushel for 40c wheat, unless a drastic reduction of the acreage sown to wheat was entered at the same time. This latter seems to be relatively impossible. The land is ready and the farms are equipped for the production of wheat, with no alternate crop offering any better return. While the future may permit changes to meet conditions, wheat growing must continue in the old volume to a very great extent for the present.

When it comes to consistently advertising Champion year after year, A. S. and C. D. McDougall with their pure bred stock have achieved more than even the promises acquired by growing over 1,000,000 bushels of wheat annually. Not in any way to belittle the wheat growing record and its results, but at the same time to have stock produced here which invariably gets into the prize winning column and makes price records wherever shown or sold, including national and international shows, is something which could not fail

to draw attention of the most gratifying kind to the district both at home and abroad.

## U. S. Farm Board

## Rated as Failure

The Farm Board has written its verdict. Price stabilization wouldn't work. The very body thought the matter out must have realized at the outset that it wouldn't work. It is as simple as anything can be, if we get down to fundamentals. Holding the price up without holding the production down may be financed by a rich and willing government for a time, but a day of reckoning must come. For surpluses will inevitably pile up, with a stabilized price stimulating production.

But a demand for segregating the surplus was built up, by a combination of farm organization plus political agitation, and perhaps there was no way out except a trial, costly as that trial must prove to be before the real character is written into history. If, indeed, that time is to come soon. The announcement by the board that wheat price stabilization will end with this crop season may or may not mean an established board policy. It depends on political pressure.

A good many politicians and others of the opportunist type have been sitting patiently on the side lines waiting for the Farm Board plan to fail. And with the wheat announcement scarcely cold they are already hinting what they aim to do. They will demand the equalization fee plan or the debenture plan, either of which would inevitably prove to be fully as disastrous as the stabilization plan that the Farm Board is about to junk, on the basis of a fair trial.

Will the country stand for committing the government further in futile and costly price experiments? It hardly seems possible that it will, but it is by no means sure that it will not, for have we not seen what a well directed agitation can accomplish in the name of a distressed industry?

The economic recovery of agriculture can be delayed for a long, long time by further tampering with its price machinery. And the export outlet for the few of our surpluses which are normal can be destroyed beyond hope of their ever being fully recovered.

The best friends of agriculture will insist on the abandonment of all price fixing schemes no matter how cleverly veneered to hide their real purpose.

Any attempt to make farming profitable by legislative process must end disastrously for the farmer. Enough has happened in the past eighteen months to demonstrate that, even to those to whom demonstration was necessary. And if we add foreign experience to our own—coffee, rubber, sugar, and so on—the evidence is overwhelming—(Editorial, Chicago Drivers' Journal).

## Argentina the Sixteenth

Argentina is the sixteenth country to officially accept the invitation of the Canadian government to attend the World's Grain Exhibition and Conference at Regina in 1932. The complete list of participants at present is as follows: Italy, Peru, Yugoslavia, Guatemala, New Zealand, Czechoslovakia, The Netherlands, Belgium, Poland, Siam, India, Portugal, Switzerland, Estonia, The Philippine Islands and Argentina. There is ample assurance that the list will increase to 40 or 50 before the opening takes place.

## Pork Curing

We wish to announce to the farmers of the Champion district that our latest and up-to-date equipment enables us to cure and smoke any amount of pork you wish to have done. For further information please write or phone The Stavelay Meat Market, Stavelay, Alberta. Box 81. Phone 7. Your satisfaction is our motto.

## A Trial Will Convince!

# Artificial Lighting Units May Be Used Instead Of Sunlight In The Grading Of Grain

Grading of grain in Canada is done by the natural light of the northern sky. In an effort to overcome the obvious inconveniences of this method, one of which is the difference in light at the various inspection points, and another, the limitation on time, the National Research Council, at the request of the Board of Grain Commissioners, has devised a series of artificial lighting units. E. B. Ramsay, the Chief Grain Commissioner, and J. D. Fraser, the Chief Grain Inspector, have inspected the results of the experiments and two of the most promising units are being shipped to Winnipeg to be tested.

In order to get sufficient uniformity of illumination the lamps are placed in an inspection stall which is bored so the inspector cannot look directly at the light. The illumination in one of the units is a combination of direct and indirect lighting to give a uniform over a table space about two feet square. Various combinations of mercury and neon lamps have been studied. To the laymen one of the striking results of the experiments has been the difference in effect which various combinations of the lights used have had in showing up the defects or good qualities of the grain examined.

As a part of the general experiment the spectra of light reflected by various samples of wheat have been measured by means of a recording microphotometer. It was found that light of wave lengths from the far red to about the blue, starry wheat reflected more than green and green or frozen wheat; green and frozen wheat approximately the same, and good wheat less than the others. Light of shorter wave lengths gave different results but the final conclusion reached was that there appeared to be no definite absorption of selective reflection by light which would make grading by physical means possible.

Dr. D. C. Rose has been conducting the experiments in the John Street laboratories of the council at Ottawa, under the direction of Dr. R. W. Wylie, the director of the Division of Physics. Dr. Rose has been requested to supervise the installation of the lights in Winnipeg.

## Market Must Be Regained

University Professor Stresses Increased Hog Production In Western Provinces

Increased hog production in the next few years was prophesied by Prof. J. P. Brockbank, of the University of Alberta, in addressing the Saskatchewan Swine Breeders' Association at dinner at the Kitchener Hotel, Regina.

The need for regaining export markets for hogs was stressed by the speaker. E. P. Brockbank, of the University of Saskatchewan, director of the boys and girls' service club, outlined the plans of this group to ship a carload of hogs to the Royal Fair next winter, in cooperation with the swine breeders. The president of the association, E. P. Richardson, presided at the dinner.

**Source Of Canadian Platinum**  
All the Canadian platinum and allied metals are obtained from the treatment of the sulfurous nickel-copper matte, with the exception of a few ounces of platinum obtained from the black sands of British Columbia, and a small quantity produced as an impure residue in the refining of gold at Trail, British Columbia.

A man of over eighty claims to have made a gramophone that can be heard distinctly at a distance of a mile. All we can say is that it is ought to know better at this time of life.

**Recuerd:** "You could have helped yourself—you can now."  
**Presided:** "Yes, but who can think of that when he is drinking?"  
Kaiser, Stockholm.

W. N. 1. 1854

## Jerseys Shipped To Alberta

Farmers of Province Sold To Enthusiasm Over Stock  
Every one is aware of the trouble of the Western wheat grower. With the high price of wheat in recent years every one forgot about the dairy cow, but, as usual, even the west has realized at last that there is still need of the dairy cow in their farming operations.

One of the large creamery operators in Alberta, early in 1929, decided they had decided that our present cowherd of 22,000 patrons wherever possible to buy Jersey cows and that the creamery would undertake to assist in the purchasing of these necessary animals.

This company operates in British Columbia and saw there what an asset the Jersey was to the community. They even realized this more fully when Phil Fleming, the western Jersey salesman, told them that part of their success in British Columbia was due to the high quality of butter that they produced and also to the fact that with the large quantities of Jersey milk there was less waste in churning—that is less butterfat went in the butterfat.

Well, to make a long story short, this is what happened in Alberta during the past summer. There has already been shipped into the province 225 head of pure bred Jersey. Cows came from all over the Dominion and from the United States. The farmers are very enthusiastic over these Jerseys, which have proven very hardy, gentle, cattle, good foragers and best of all very economic producers of butterfat. There is a wonderful market for Jerseys in Alberta which is following along the lines of development, but even more rapidly than that which has taken place in the Maritime Provinces in recent years.

## Possible To Cut Loss

Check Mortality Can Be Prevented

With the complete elimination of pullorum which is definitely possible through strict elimination of reactors in a flock as determined by the blood test, very considerable savings to Canadian farmers and poultrymen in chick loss are assured. Tests carried out over a period of years by the poultry division of the Dominion experimental farms indicate conclusively that complete elimination is possible and that chick mortality from this cause can be similarly decreased. Pullorum alone is responsible for chick losses running into millions of dollars annually, and, to use the words of P. C. Efford, Dominion poultry husbandman, "much if not all of this tremendous loss is preventable."

## Cadmiun In Canada

Cadmiun, a by-product obtained in the production of zinc, was produced in Canada for the first time at Trail, British Columbia, early in 1928. Considerable quantities of the metal are employed in Canada, chiefly for plating purposes and, because of this in connection with the radio and automobile industries, the consumption has increased very rapidly.

"What shall I wear for my screen test?"  
"How about a filmy dress?"

## UNIQUE MODE OF TRAVEL

With five miles to and from work to travel each day, and with no means of transportation, W. H. Slater, a retired naval officer, devised this ingenious means of reaching his home at Cliffe, Kent, England. The "rail-train" or land yacht, is constructed from an old quarry truck chassis and sails, and travels over the rails on the abandoned quarry at a fair rate of speed.

## LUCKY WINNER

Mary Pacheco, of New Bedford, Mass., a 31-year-old mill worker, bought a dollar sweepstakes ticket to get rid of an important salesman. She won the \$100,000 prize in the Army and Navy Veterans of Canada draw, and has just received cheque of \$38,303, her profits after deduction of taxes.

## Decide Menu Are Dull

Gastronomic Futurists Of Europe Urge More Beauty In Food

European Gastronomic Futurists sitting at an Academy of Good Eating have decided that our present menu are too dull and need more color and perfume; that talking at the table is as sacrilegious as talking in church; and that the knife and fork must be suppressed.

Good food must be artistic, like maps and oil paintings, the academy decided and forthwith set about drafting an entire new set of recipes. The Academy would turn the kitchen into mixed laboratory-beauty-shop with all sorts of scientific instruments. Good cooking would be a science, not an art, and the cook would follow a formula, like a chemist mixing drugs.

The Academy believes in music and perfume between courses. Before any dish is served, special music and a perfume to it are introduced. With woodcock, for example, there would be music of the hunting horns and perfume of the forest in October. The Academy would end after dinner speeches. Oratory and cooking never mix.

The Academy suggests that between courses many beautiful and attractive dishes of food be carried to the table and passed rapidly under the noses and eyes of the guests to excite the curiosity, surprise and imagination. These foods would not be eaten. There would also be a "food concert" one spoon filled with a concoction of a dozen tastes and perfumes.

## Arrival Delayed

New Yorker tells the story about a Scotch friend, who hurried home to ask his wife how she'd like a studio piano, and when she admitted it would certainly give time to their drawing room, and questioned him as to when it would arrive, admitted he didn't know, but he was sure because he had only purchased a ticket for it a few hours before and that the traffic wouldn't take place for another week.

# War-Time Pilots Have Plan For Establishment Of A Royal Canadian Air Force Reserve

## Two Most Important Factors

Regularity and Quiet Necessary In Feeding Of Livestock

An authority on the feeding and fattening of livestock has pointed out that the two most important factors in the feeding of livestock, outside of the actual feed itself, are regularity and quiet. He might have also added that these same two factors, particularly the former, are two of the most neglected.

There is a certain temperament to a group of steers which are being fed, and there are two important ways in which it can be upset. The most serious is an irregular system of feeding which keeps the animals restless and restless for an unusual length of time and which cuts down the amount of feed available for turning into fat. The same thing occurs when the feeder neglects common precautions of quiet and order in handling and working around the cattle.

These are considered small matters by many feeders, and others neglects in connection with the stock may tend to mask their importance. The fact remains that they are important and are not overlooked by the man who has the most pride in his cattle or in his ability to make them pay dividends even in the face of low prices.

## BETTY BARCLAY'S HELPFUL HINTS

## Today Betty Says:

Unless we get sufficient vitamin "C" each day, tooth decay is very likely to set in. One prominent authority, Dr. Milton Theodore Hanks, of the University of Chicago, recommends a full pint of orange juice daily with the juice of a lemon added, as the proper daily amount of Vitamin "C" necessary to check dental decay. It's easy enough to make children take this kind of medicine. To them, such a drink is a luxury at any time of the day.

When following recipes, make your teaspoons and tablespoons level unless otherwise specified. Those who fail to do this cannot blame the recipe if anything goes wrong.

## When the Current Goes Off

Everything Stops In This Highly Electrified Age

It makes us laugh, with a hearty old laugh, to see how completely our homes go to pieces nowadays when anything happens to the electric current. It used to be that when a storm broke down the electric wires, the only thing that happened was the light went out. Now, when the light goes out, everything else quits too. There is no ice in the ice-box, no music in the piano, no coffee in the percolator, no dialogue in the radio, no toast in the toaster; the vacuum cleaner stands silent in the corner. Sister can't curl her hair, Brother's toy train stops running, the heat in the bathroom goes off, the hot-water doesn't work, and the orange-squeezer stops squeezing right in the middle of an orange. It's just a question of gathering around a log to mark time till the storm abates.

## "Mr." and "Mrs."

The titles "Mr." and "Mrs." now common property, were not always so freely bestowed. In the seventeenth century only such persons as ministers and physicians and their wives prefixed these titles to their names. The title for those above the rank of servant but below that of gentleman was "Gentleman" or "Gentlewife."

"I waited twenty years for my boy," wrote a correspondent.

"That'll teach him not to go shopping with her again."

Efforts will be made to establish a Royal Canadian Air Force reserve following discussion at the first reunion dinner of the Canadian Young Pilots and Observers' Association held at Ottawa, under the scheme senior officers who served overseas will be enabled to continue flying and through that medium increase public enthusiasm in air transportation.

Friendships were renewed and bonds of service recalled at the gathering of pilots. It was decided to make the dinner an annual affair and it will be held in Montreal next year.

Suggestion that Rockcliffe Field, Ottawa, be named "Baker Field" after the distinguished Canadian aviator, Lt.-Col. W. G. Barker, V.C., who was killed in an aeroplane accident three months ago, came from P. D. McCurdy, of Montreal, first Canadian to fly a biplane. He also suggested St. Hubert aerodrome, Montreal, be renamed "Bishop Field" after Col. W. A. Bishop, V.C., famous war ace, who was the guest of honor.

Basilides McMurtry and Col. Bishop, Hon. D. M. Sutherland, Minister of National Defence, Major-General J. H. MacBrien, president of the Aviation League of Canada, and Major-General A. G. L. McCaughton, chief of staff, were among the speakers.

Seeking to increase enthusiasm for gliding, Aviation League of Canada adopted a motion requesting the Department of National Defence to establish a curriculum of training for glider-flying. Accident were responsible for holding down the popularity of gliding in the Dominion, speakers held. It was suggested the defence department might supervise designs for gliders to be used in this country.

Close co-operation between the league and the Canadian Flying Club Association will be maintained. It was decided, as an agency for the development of Canadian aeronautics, it was decided that the national aircraft model contest which proved a success in 1928, should be repeated this year. Venue and date for the contest will be set later.

## Needed Better Treatment

Indian Medicine Man Lost Faith In Drum Beating

Out in Kiploot, B.C., lives an Indian medicine man who is not at all sure about his own medicine, according to a letter received at United Church Home Missions offices in Toronto, from Mrs. Monro, field agent, who does district nursing on the Kiploot reserve.

In her letter Mrs. Menzies says the medicine man called upon her for attention. Previously he had always refused her offers of aid. When she asked the patient why he did not beat the drum for himself and take his own medicine, he replied: "Sometimes drum straight. Sometimes medicine straight. But me sick."

## Cadmiun In Canada

Cadmiun, a by-product obtained in the production of zinc, was produced in Canada for the first time at Trail, British Columbia, early in 1928. Considerable quantities of the metal are employed in Canada, chiefly for plating purposes and because of this in connection with the radio and automobile industries, the consumption has increased very rapidly.

## A Good Opportunity

The farm boys and girls who took special agriculture courses during the winter will find ample scope on the home farm to try out their recently acquired knowledge. The problems were never bigger and the need of accurate information was never greater than now, says the Farmers' Advocate.

A study of the causes of heart disease has been started by New York State health officials.

"You seem and have you lost any body?"  
"Quite the opposite—I have just had triplets."—Montague, Charleston.

# Which Would Do Most Work?

**Long Hair** is like a blanket. Leave it on and your horse sweat excessively and all night this cold wet blanket of long hair chills the horse and prevents proper rest. Horses in top down condition are easy prey to cold, pneumonia and other ills.

**New Steam CLIPMASTER** an electric clipper for clipping horses' heads, legs, etc., and easily held in hand like a grooming brush. Works from light socket, has 25 ft. extension cord, special universal motor. Price, complete, only \$12.75.

Flexible Shaft Co. Limited 340 Carlaw Ave., Toronto

**Remove** the long hair. Clipping gives new life to horses—they do more work on less feed—dry at night and get proper rest. Clipped horses easily groomed, less subject to flies, always fit for full day's work. Keep your horses on the job. **CLIP NOW.**

**STEWART'S No. 1 Clipper** Machine. Clipping tool, Lancia motor, strong, simple, light, easily handled, steps down. Clipping horse and cow. Price only \$15.00. If your dealer cannot supply STEWART'S machine, write to STEWART'S, 340 Carlaw Ave., Toronto, or many hardware stores.

STEWART

## WORLD HAPPENINGS BRIEFLY TOLD

The next session of congress will probably see restriction of immigration from Canada to about 4,000 annually.

A general election in Britain before the end of the present year was predicted in an address by S. K. Radcliffe, British Journalist.

The visa fee for Canadians going into China has not been increased so far, it was learned at the Chinese consulate at Ottawa.

A visit to Canada by Lord Jellicoe, as a delegate to the British Empire Service League meeting at Banff, Alberta, is expected to take place in August.

Severe losses through cutworm are predicted for 1931, in Saskatchewan, if average weather conditions prevail, according to a warning by the Department of Agriculture.

Preservation by Canada of early specimens of architecture was urged at a meeting of the Royal Canadian Institute by Prof. E. R. Arthur, of Toronto.

About fifteen months ago giant snails fifteen feet long climbed around the stern cliffs of Quebec. A piece of the shell of one of these monsters of the Ordovician period has been found imbedded in a limestone cliff on Viscount Hill.

The ban on the use of dogs in hunting deer may be brought into effect by legislation at the present session of the Ontario legislature. After several contentious sessions, the fish and game committee voted 10 to 9 in favor of continuing the use of dogs.

Official notice has been given that the Army and Navy Veterans of Canada will seek power at the present session of parliament to operate sweatshops. The association's charter would be amended, according to a notice in a recent copy of the Canada Gazette.

Dr. Boland Hughes, of Philadelphia, explained to the Royal Society of Medicine, meeting in London, England, a new iodine compound to be used for making X-rays of the kidneys and bladder. The new compound is expected to considerably advance the technique of diagnosis of diseases of those organs.

## Contest Shows Girls Are Better Sleepers

**And Less Greasy in Morning Than Boys, Says Doctor**

Girls are far better sleepers than men, and as a result feel more peppy and less greasy in the morning, Dr. D. Laird, of Colgate University, said in an address at Ottawa.

An "intercollegiate good sleep contest" between boys of Colgate and girls at Skidmore showed that girls have less trouble going to sleep, wake up fewer times and have fewer dreams.

"If you need an alarm clock to awaken you, then you need more sleep," the slumber expert said.

Wife: "Why are you sad?"  
Husband: "I've lost \$1,000, and it was mine."  
—Buen Humor, Madrid.

## Winnipeg Newspaper Union

(By Annette).

The return of the prodigal son, the prodigal comes home. The prodigal, immediately carries out his high resolve. He returns in rags and is met by a pauper and unrepentant vagabond. "It is often a long time from resolution to its realization. The journey is frequently so long that it is never completed and the resolve never becomes a reality. This is true because in so many instances, good resolution has nothing to back it up except a tainted life, and a tainted life, in the end, will of the prodigal there is still life and power."

We can picture him as he travels the long weary stretch back to his home, rehearsing in his mind the plans he proposes to make there. How will his father receive him? Has he ventured on no greater hope than to be received as a high stranger? But his father's love is far larger than his sin. While he is yet afar off his father hears him and is moved with compassion; he runs to meet him, and kisses him.

"A great way of life he saw me, ran to kiss me as I came."

A was my father, my love, me in my sin and shame."

—Terzietzen.

## Discounts Russian Wheat Menace

Predicts That Within Five Years There Will Be a World Glut for Wheat

The dark shadow of Russia on the wheat marketing picture will vanish gradually.

Within five years, there will be a world glut for Alberta wheat.

Such were two of the main points in an optimistic address, delivered by Premier J. E. Brownlee, at the annual banquet of the Alberta Association of Professional Engineers in Edmonton. At the time he was replying to the toast to "The Province of Alberta."

Declaring that Russia was at the lowest margin upon which human life survived, Mr. Brownlee said it was evident that the country would move to higher standards of living.

May Enlarge Power Plant  
The Saskatchewan Power Commission is considering an addition of machinery to the Saskatoon plant, to cost in the neighborhood of \$400,000.

No additional buildings, however, will be required. Construction of additional transmission lines throughout the Saskatoon district necessitated the enlargement of the plant.

Saskatchewan Bronze Turkeys  
W. E. Sellers, of Strathburg, Sask., who has been showing his bronze turkeys at the fall and winter poultry shows again this year, has had another successful season. At the major shows held at Winnipeg, Saskatoon, Yorkton and Moose Jaw, his wins with turkeys include 7 firsts, 7 seconds, 2 thirds, 4 fourths, 5 fifths, 2 silver cups, 4 specials and 3 championships.

Under a law of 1787 James McOwen was fined \$20 at Coughlin, Ireland, recently, for shooting game on Sunday.

"My brother is very intelligent. He has married a teacher."

"My brother is more intelligent. He isn't married at all."

## SUNDAY SCHOOL LESSON

APRIL 12

### THE PRODIGAL SON

Golden Text: "There is joy in the presence of the angels of God over one sinner that repenteth."—Luk. 15: 10.

Lesson: Luke 15.

Devotional Reading: Isaiah 53: 1-3.

### Explanations and Comments

The Parable of the Prodigal Son: (The Son Sinning and In Want, verses 13-19).—As we first see the prodigal son, he is a picture of supreme selfishness. He demands from his father a portion of his property that would actually be his, and upon receiving it he takes himself to a far country. "Every one of us is making some demand upon life. It may be shouldered from the hostess for all the world to hear, or advertised in every word and act of our life. The whole cry of some men is 'Give me, Give me!' Never mind the price. Never mind what it costs of the finer things. It is the honor, the joy of a present one, the pain of others. 'Give me the portion of goods that falleth to me.'"

James Field.  
How far will selfishness carry one? It follows to the end. "It carried the prodigal straight down. In the far country the wayward boy had his reckless fling. He accepted a spendthrift and a reprobate—he wasted his substance with riotous living. He loses his fine feelings, his good food, his good friends, and at last he comes to the field and the company of swine. Even the husks and pods of the carter feed the swine are welcomed as food, for he is in sore want."

Riotous living may have for us no lure, but we may be guilty, nevertheless, of squandering our portion. It is youth, talents, education, time, opportunity, life.

The Son Coming To Himself, verses 17-19.—Referring to Swan's great picture of the Prodigal Son in the Tate Gallery, London, England, W. L. Walkington said: "It is a masterpiece. The prodigal son, himself, is a very droll, droll figure, and for the swine they are simply dressed, most diabolical beasts. But what struck me most of all is that the prodigal had put in a few days of the street life. There is a bright spot in the dark picture of the prodigal, the prodigal 'comes to himself.'"

The Return and the Father's Forgiveness, verses 20-24.—The prodigal immediately carries out his high resolve. He returns in rags and is met by a pauper and unrepentant vagabond.

"It is often a long time from resolution to its realization. The journey is frequently so long that it is never completed and the resolve never becomes a reality. This is true because in so many instances, good resolution has nothing to back it up except a tainted life, and a tainted life, in the end, will of the prodigal there is still life and power."

We can picture him as he travels the long weary stretch back to his home, rehearsing in his mind the plans he proposes to make there. How will his father receive him? Has he ventured on no greater hope than to be received as a high stranger? But his father's love is far larger than his sin. While he is yet afar off his father hears him and is moved with compassion; he runs to meet him, and kisses him.

"A great way of life he saw me, ran to kiss me as I came."

A was my father, my love, me in my sin and shame."

## Spasmodic Croup Quickly Checked

Often with one application, just rub Vicks over throat and chest.

**VICKS VAPORUB**  
OVER 30 MILLION JARS USED YEARLY

## Queer Place For Chapel

Four Bridges In England Have Church On Them

Wakefield's historic bridge over the River Calder—one of the four bridges in England to have a chantry chapel built upon it—is to be relieved of much of its traffic by the erection of a new bridge near by.

Such a bridge has long been necessary, since the present one is much too narrow to accommodate the heavy stream of traffic flowing between Leeds and Sheffield. The present bridge is to remain with its famous chapel in its historic position. The chapel has been used as a bacon factory, an old clothes shop, a livery, a dairy, a corn factor's office, a jail and, since its restoration in 1842, as a church.

## British Wholesale Society

May Establish Packing Plant In Western Canada

The Toronto Globe publishes the following despatch from Ottawa: "Representatives of the Co-Operative Wholesale Society, with headquarters at Manchester and hundreds of stores throughout England, had a conference with Hon. Robert W. Minister of Agriculture. It is understood the 'Co-Op.' as it is popularly known in Britain, is contemplating establishment in Canada. The society also are looking over the ground to see what they can purchase from the country in the way of food products."

"Their packing plant may be established in western Canada. H. S. Arkell, superintendent, and J. M. King, secretary of the Canadian Livestock Co-Operatives, accompanied them."

## Wear On Shoes

The U. S. Bureau of Standards in Washington, D.C., has a walking machine for testing the life of shoe leather. In 24 hours the machine gives the equivalent of several months of wear to a pair of shoes, while observers study the reaction of the leather to the severe strain of the test.

Some grades of silk have been cheaper in London recently than they have been for 100 years.

In a recent month Norway exported 35,800 tons of fish.

The milky way of the heavens is said to contain approximately 30,000 million stars.

## Delegation May Bring Better Trade Relations

Increased Business With Argentine May Result From Visit

The visit of the Canadian trade delegation has aroused the press of Buenos Aires to comment very favorably on the prospects of closer trade relations between the two countries.

It has even been suggested that negotiations be initiated for a mutual understanding between the Argentine and Canada on the all-important question of marketing wheat. Both countries, it is pointed out, would greatly benefit by such a move, although a basis of any such agreement has not yet been suggested.

Cordial discussions took place over a week-end between members of the Canadian delegation and representatives of the Argentine Government. Arising out of these discussions, it is confidently anticipated more profitable business will result for both countries.

## This Motorist Was Lucky

Train Smashed Car But Driver Escaped With Minor Injuries

Motorists who race locomotives to speed are sometimes to be blamed sometimes with an amazing good fortune. The driver of an automobile in the Southern States, recently was hit and killed by a yard engine. His life was saved by little shot of a miracle. The locomotive crushed the wheels of his automobile, the chassis of the car dropped to the railroad tracks, and the automobile and driver were pushed along the track at a good rate of speed for more than 150 feet. The driver escaped with minor cuts and bruises. He collected the spare parts of his automobile, and added by the railroad wrecking crew managed to get his smashed motor car to a vacant lot.

## Branch Line Construction

Construction Programme Of C.N.R. Is Proceeding As Authorized In 1928

All the branch lines of the Canadian National Railways authorized for construction in 1927, were completed by the end of 1930, according to a return table in the House of Commons by Hon. R. J. Manion, Minister of Railways. Last year \$22,250,000 was spent to finish the work, making a total spent on the 14 branches authorized of \$18,127,760.03.

Construction is proceeding on the branch lines which parliament gave authority in 1930. Seventeen of these accounted for an expenditure of \$13,202,718.96 last year. For the current year the work will cost an estimated figure of \$3,750,000.

## Canada's Fresh Water Area

More than half the fresh water of the globe is contained in inland waters of Canada and twenty different varieties of food fishes are obtained from them in abundance by commercial fishermen each year. Inland commercial fishing is carried on in six provinces and in the Yukon Territory.

## Unemployment Relief

Impossible For Country To Continue Present System Indefinitely

In the country going to continue indefinitely the existing wasteful and uneconomic system of relief? At present there is no reason to assume that the percentage of unemployment next winter will be any less. The country, the provinces and the cities cannot continue indefinitely expending millions of dollars in direct relief or in public works that are unproductive. A more businesslike system will have to be devised for looking after men out of work, and times are preparing for next winter is now. It may be some years before the problem of unemployment disappears and a more practical method of solving it will have to be evolved—Calgary Herald.

Morocco plans to develop its coal and iron ore resources.

# Make Your Windows Pay

Invest in WINDOLITE Windows and you will be rewarded a hundredfold in the health of your Poultry and Live Stock

**WINDOLITE**  
THE ORIGINAL GLASS SUBSTITUTE  
MADE IN ENGLAND SINCE 1917 ON ORIGINAL PATENTS

This unbreakable glass substitute is light and flexible, easy to cut and fit, will withstand extreme changes in temperature, keeps out cold and wet, but allows the full sunlight to enter, including the health-giving Ultra-Violet Rays, which do not penetrate ordinary glass.

Canadian breeders of poultry and livestock are finding WINDOLITE a most satisfactory and profitable investment. Young chickens and turkeys are entirely free from leg weakness and disease and will thrive in confinement under WINDOLITE. WINDOLITE comes in rolls any length, but 36 inches wide only.

## GRAIN FUTURES SALES WILL BE INVESTIGATED

Ottawa, Ont.—Does the sale of grain futures operate to the detriment of the producer? This was the "single, single question" which Sir Joseph Stamp, and his colleagues will be asked to determine, Premier Bennett announced in the House of Commons last night. The British economist, consented to act as chairman of the commission to conduct this inquiry, at considerable inconvenience to himself.

The government had taken the view that there had been such sharp differences of opinion on this continent and in this country as to the desirability of maintaining markets for the sale of futures in Canada, that it was thought best to secure the services of some one entirely removed from the scene of these conflicts of opinion. Mr. Bennett declared that Sir Joseph had been asked to head the inquiry and had consented.

Two other commissioners will comprise the board, one selected by the governments of the prairie provinces, and the other to represent the grain shippers. They will be selected very soon.

The commission will, in all probability, hold open hearings in Winnipeg, and possibly in other cities in the west. Hon. Robert Weir, Minister of Agriculture, stated. The minister explained that the government would be given a free hand but it was desired to get all the information possible and also desirous to hear representatives of all interests affected, open hearings would not doubt be decided upon as the most expedient. The government was desirous that anyone who could throw any light on the problem should be heard.

Expectation is that the investigation will be completed and the report made public in time to guide in the marketing of the next crop. The minister viewed with favor the international view conference to be held in London, England, in May. "All the information we can get on the subject is to the good," he said.

Cornell will be selected to represent the government, the grain changes and the producers to attend to present plans.

## Immigration Restricted

Government Policy Has Helped To Solve Unemployment Problem

Ottawa, Ont.—The government's policy of restricted immigration has materially helped to solve the unemployment problem in the last six months, and has reduced the number of arrivals of new citizens by 35 per cent. over the corresponding period of the previous year, according to Hon. W. A. Gordon, Minister of Immigration and Colonization.

He also pointed out that in the first 11 months of the last fiscal year, 28,728 young Canadians were born, as compared with 22,510 in the corresponding period of the previous year.

Total number of jobs men placed on farms by the Land Settlement branch of the immigration department numbers 2,300 to the end of February, 1931.

## Will Seek Information

Members of Co-Operative Wholesale Society of Great Britain Are Here As Observers

Toronto, Ont.—"We are merely in Canada as observers and have no opinions," said George W. Brooks, a director of the Co-Operative Wholesale Society of Great Britain, when interviewed by the press.

However, he provided details of the organization, which comprises 1,141 affiliated societies and 4,029,332 co-operative customers. The company's sales in 1924-25 first year were £100,000, while in the year ending July, 1930, they amounted to £500,000. Butter holds first place in turnover, sales totaling \$22,000,000, and is followed by food, sugar, bacon and hams, and tea.

Overseas trade for the year 1930 amounted to \$6,500,000. In addition to this the organization purchased \$6,000,000 worth of grain from the Canadian Wheat Pool.

There have been reports that the society contemplated establishing a branch in Canada.

## Winners In Writing Contest

Novel By Calgary Girl Carried Off Third Prize

Montreal.—A Dominion-wide contest in novel writing came to an end with the announcement that Raymond Kaister, of Port Dover, Ontario, has been awarded first prize of \$2,500 for his winning manuscript.

Second prize of \$1,500 went to Marcus Adams, of Toronto, and Elia W. Wallis, of Calgary, won the third prize of \$1,000. All three books will be published in the near future.

Several manuscripts were thought to be of such merit that the contest judges considered that they be published also. Included in this latter group were books by Laura Goodman Salverson, of Port Arthur, Ontario; Francis Owen, Edmonton; and Isabel Henderson, Winnipeg.

The object of the contest was to demonstrate to Canadian readers that 100 per cent. Canadian books rank as high as those published anywhere, and that there are many potential authors in the Dominion.

## U.S. Airplane Crash

Knutte Rockne, Notre Dame Football Coach, Is Killed

Bossier, Kas.—Knutte Rockne, Notre Dame football game, plunged to his death with five fellow-passengers and two pilots on a Transcontinental and Western Air line liner in the mid-Kansas grazing country near Kansas City.

The plane California-bound from Kansas City, crashed on a farm, killing all eight occupants instantly. Witnesses of the craft flying through clouds and fog lost a wing in the air and hurtled to the ground like a crippled bird.

The body of Rockne was identified by W. L. White, son of William Allan White, of the Emporia Gazette. The famous coach boarded the plane just before its departure from Kansas City, in mist and rain, at 9:15 a.m. It was expected for Holywood to conduct picture arrangements for making talking pictures.

## Was Secretary To Royalty

Lord Stanfornham Passes Away At Advanced Age

London, England.—Lord Stanfornham, secretary to royalty for the past 50 years and said to have possessed more state secrets than any other man, died recently. He was 81 years old.

Born Arthur Bigge, the son of a country squire, Lord Stanfornham was private secretary to Queen Victoria and at the time of his death was private secretary to the King. He was often referred to as "the man behind the throne."

On March 13, Lord Stanfornham underwent an operation but this resulted in little improvement in his condition. The private secretary is survived by two daughters, the Hon. Mrs. Victoria Eugenie Alcaide, and the Hon. Margaret Bigge. Lady Stanfornham died in 1922.

## Appointed Lieut.-Governor

LI.-COL. Munroe Receives Appointment For Saskatchewan

Ottawa, Ont.—LI.-COL. Hugh Edwin Munroe, M.D., O.B.E., of Saskatoon, has been appointed Lieutenant-Governor of the province of Saskatchewan. Announcement of the appointment was made by Premier H. B. Bennett. He succeeds Hon. H. W. Newslands. Dr. Munroe is one of the "old timers" of the North West Territories and a prominent medical practitioner of Saskatoon. He has a distinguished war record.

Mr. Newslands retired from office on December 31, 1930. At that time Sir Frederick Haultain was appointed administrator of the province.

Because of illness of Sir Frederick, an acting administrator was named, Lady Justice J. T. Brown, of the Saskatchewan Court of King's Bench, now holding this post.

## Would Replace U.S. Grain

Ontario's Grain Requirements May Be Supplied From West

Toronto, Ont.—Western Canada grain will replace those imported from the United States for use in Ontario if legislation is passed next year, following investigation now being made by the Department of Agriculture, under Col. Thomas Kennedy.

The existing legislation will probably ban grain, coal, elevators and feeders of the province in a co-operative arrangement.

## LAY PLANS FOR MARKETING OF THE WHEAT CROP

Rome, Italy.—The first steps were taken towards the orderly marketing of the world's next wheat crop. Representatives of Canada, Argentina, Australia, Bulgaria, Hungary, India, Poland, Romania, the Soviet Union and Yugoslavia met to discuss preliminaries to the summing-up of a formal conference where, it is hoped, a definite agreement will be reached for the sale of the 1931-32 crop.

It was upon the motion of Hon. G. Howard Ferguson, Canada's high commissioner in London, England, and the Dominion's chief delegate at the conference, that the production committee adopted the suggestion of a later conference to deal with marketing the crop which is to come. Mr. Ferguson's motion read, "That the committee be requested to consider the importance of orderly marketing of the export surplus of wheat and being continued the present low price of wheat on the world's markets is a serious factor, in the present economic depression, is of the opinion that it is desirable that delegates of countries exporting wheat should meet together as soon as possible to organize on an international basis the exportation of the crop of the year 1931-32."

The motion concluded by suggesting that the United States should be invited to take part in the discussion. One suggestion is that the deliberations should be held in Canada early next summer.

The proposed conference covers a broader field than as originally suggested. As the work of the present wheat conference has proceeded so many divisions of opinion have been revealed that anything like a general agreement among the 46 nations represented appears to be highly improbable. The gulf between the overseas countries and the European wheat exporting countries seemed to be wide.

The Danubian countries again sought preferential treatment in Europe for their wheat. But to this serious objection was again made and proposals involving rationing of production met with like objections. The overseas exporting countries discussed orderly marketing, apart from the conference proper, and encountered so much success that approaches were made to the Dominion countries. They agreed to join a conference to be held next year and the Soviet delegation did likewise, making their agreement, however, conditional on the approval of the Soviet Government.

Then came the formal motion in the wheat production committee by Canada's chief delegate. The committee approved the motion and representatives of all the producing countries concerned met to discuss preliminaries.

## Will Visit Canada

Washington, D.C.—Sir Ronald Lindsay, the British ambassador will visit Canada during the latter part of April. It is expected Sir Ronald, paying his first semi-official visit to the Dominion, will have Washington about April 28, to go on to Ottawa, Toronto and Montreal.

## Seeking New Record

Netherdown, Wilshire, Eng.—Lieutenant-Commander Glen Kidston, with Lieutenant C. C. Jones, and a wireless operator took off from here March 31, in an attempt to set a new air record from England to Capetown, South Africa.

Urging Public Health Inquiry In Province Of Manitoba

Winnipeg, Man.—Inquiry by a special select committee of the Manitoba legislature into matters of public health in the province was urged in the House recently by J. W. Pratt, Independent member for Rattle. His probe request was supported by Dr. Murdoch Mackay, Liberal, Springfield, and J. B. Laughlin, Conservative, Killarney. The question of state medical aid would have to be considered by the government within a short time, Dr. Mackay believed.

## SEALING VESSEL EXPLOSION

## MINISTER TO CUBA

Commission Gave Report On Crash Of R-161

London, England.—The disaster to the dirigible, R-161, which stunned the world when it came down in flames on a hillside near Beauvais, France, last October, killing 48 men, has been attributed to mechanical causes, and not to human failure. The report of the Simon Commission, which made a long study of the disaster, and had been made public, attributed the disaster mainly to "a substantial loss of gas in very bumpy weather."

The report considered that it was probable that the forepart of the ship's envelope was ripped. "Something of this sort happened on a previous occasion and no amount of care could ensure that it would not happen again," the report said, emphasizing the possibility of mechanical failure in dirigibles as at present conceived.

The commission refused to take a position one way or another regarding the effects of the tragedy on the future of lighter-than-air navigation.

Sir John Joyce Broderick, newly appointed British minister to Cuba, photographed when he sailed from New York for England, where he will enjoy a short vacation before taking up his new duties. He was formerly attached to the British embassy in Washington. He sailed March 14.—Associated Press House.

## Reports Say Ottawa Plans Domestic Loan

To Cover Obligations Maturing Within Two and a Half Years

Ottawa, Ont.—While there are many rumors of government financial plans to provide for large maturities within the next few years, no decision as to the plan to be adopted has been reached. Canada paid off her \$25,000,000 maturity in New York, April 1, out of money raised last year. This was one of the first war loans, and was floated in 1916.

In respect to the very large loans which will mature within the next two and a half years there has been no official pronouncement. These total more than a billion dollars. It is the general impression that the government proposes to utilize domestic resources, and that a large loan will be floated in America. Premier Bennett, in his capacity of finance minister, has the matter in hand, and the policy of the government will be announced in due course.

## Look For Better Prices

Believe Canadian Wheat Prices Due For a Rise Shortly

Toronto, Ont.—Belief that Canadian wheat prices are due for a rise shortly, was expressed by C. W. Peterson, of the Farm and Ranch Review, Calgary, Alberta. Mr. Peterson, who is visiting the city, could not continue to produce wheat. It is the general impression that the government proposes to utilize domestic resources, and that a large loan will be floated in America. Premier Bennett, in his capacity of finance minister, has the matter in hand, and the policy of the government will be announced in due course.

## Want Health Probe

Urging Public Health Inquiry In Province Of Manitoba

Winnipeg, Man.—Inquiry by a special select committee of the Manitoba legislature into matters of public health in the province was urged in the House recently by J. W. Pratt, Independent member for Rattle. His probe request was supported by Dr. Murdoch Mackay, Liberal, Springfield, and J. B. Laughlin, Conservative, Killarney. The question of state medical aid would have to be considered by the government within a short time, Dr. Mackay believed.

## Ripped Fabric Caused Dirigible Disaster

Commission Gave Report On Crash Of R-161

London, England.—The disaster to the dirigible, R-161, which stunned the world when it came down in flames on a hillside near Beauvais, France, last October, killing 48 men, has been attributed to mechanical causes, and not to human failure. The report of the Simon Commission, which made a long study of the disaster, and had been made public, attributed the disaster mainly to "a substantial loss of gas in very bumpy weather."

The report considered that it was probable that the forepart of the ship's envelope was ripped. "Something of this sort happened on a previous occasion and no amount of care could ensure that it would not happen again," the report said, emphasizing the possibility of mechanical failure in dirigibles as at present conceived.

The commission refused to take a position one way or another regarding the effects of the tragedy on the future of lighter-than-air navigation.

## WORLD WHEAT PARLEY TO BE HELD IN LONDON

Rome, Italy.—Canada's House, at London, England, will be the scene of a conference between representatives of wheat exporting countries of the world. The conference will endeavor to reach agreements for the orderly marketing of the next crop.

Hon. G. Howard Ferguson, Canadian High Commissioner, will preside.

The conference will meet on May 18, and its activities will be defined only by Mr. Ferguson's resolution, in which the high commissioner moved that the conference suggest the London meeting, at which delegates of countries exporting wheat should meet to organize, on an international basis, the exportation of next year's crop.

The conference will be held in London, England, and to make it, in effect, responsible to the International Institute of Agriculture, under whose auspices the Rome wheat conference was called.

## WILL MAINTAIN CLOSE CHECK ON EXPENDITURES

Ottawa, Ont.—"Every department must keep within its appropriation; if not, then some gentlemen are going to lose their positions," declared the prime minister in the House of Commons last night.

The House was in committee of supply considering supplementary estimates and had under examination an appropriation amounting to \$60,550,000 to cover unprovided items 1929-1930," as per auditor general's report. The item finally passed.

Mr. Bennett traced the growth of this annual amount, and asserted that if parliamentary control over appropriations was to be maintained, then discipline must be applied or the whole system would be wrecked. The amount covered by the item had already been paid, and all that was being asked was merely to legalize the expenditures and begin the new fiscal year on April 1 with a clean slate.

"I agree with the prime minister as to the desirability of exercising the closest possible control over public officials," declared Mr. Mackenzie King, leader of the opposition, but the prime minister should recall that he (Mr. Bennett) had had this for eight months of the fiscal year, while the previous administration had had only four months. In view of that, the responsibility for the over-expenditure lay with the government.

Mr. King believed that the government had had four months of the fiscal year, while the previous administration had had only four months. In view of that, the responsibility for the over-expenditure lay with the government.

The question of whether the control of the auditor-general began before the payment of accounts was raised, the prime minister contending that this official's duty was to check the accuracy of the amounts and the authority for the expenditures. The money, he said, was paid before the auditor-general had a chance. Hon. Charles Stewart (Liberal, Edmonton West), declared that the prime minister would find it the most difficult thing in the world to close out accounts at the end of the fiscal year.

Mr. King recalled that in 1921-1922 the outgoing Conservative government had left an amount of \$2,650,550.86 to be accounted for in the corresponding item for that year. He agreed with the sum now under consideration it could be seen, he said, how the last administration had exercised care and caution. The prime minister observed that special reasons had existed then, the magnitude of the sum being due to activities in connection with unemployment relief.

The situation was, said the prime minister, that the present government, in an endeavor to have all things square accounts for the beginning of the fiscal year, was seeking authority for the payment of these items. He now intended of placing them in the next supplementary estimates for 1931-1932.

"I am making an endeavor to see that hereafter there will be no over-expenditures by deputy ministers in the administration of their department by opening letters sent from England to Ireland for tickets in the Irish hospital weekpayers are being held up, pending Mr. Bennett's order that the British high office on what disposition to make of the currency. The weekpayers is not legal here.

## Earthquake Takes Heavy Toll

City Of Managua, In Nicaragua, Is Ruined

S.S. City of Panama, in Corinth Harbor, Nicaragua.—The City of Managua is in ruins and there are hundreds of bodies. Hon. Charles Stewart (Liberal, Edmonton West), declared that the prime minister would find it the most difficult thing in the world to close out accounts at the end of the fiscal year.

Mr. King recalled that in 1921-1922 the outgoing Conservative government had left an amount of \$2,650,550.86 to be accounted for in the corresponding item for that year. He agreed with the sum now under consideration it could be seen, he said, how the last administration had exercised care and caution. The prime minister observed that special reasons had existed then, the magnitude of the sum being due to activities in connection with unemployment relief.

The situation was, said the prime minister, that the present government, in an endeavor to have all things square accounts for the beginning of the fiscal year, was seeking authority for the payment of these items. He now intended of placing them in the next supplementary estimates for 1931-1932.

"I am making an endeavor to see that hereafter there will be no over-expenditures by deputy ministers in the administration of their department by opening letters sent from England to Ireland for tickets in the Irish hospital weekpayers are being held up, pending Mr. Bennett's order that the British high office on what disposition to make of the currency. The weekpayers is not legal here.

## CHAMPION CHATTER

Vol. 4

Thursday, April 9, 1931

No. 16

Published in the interests of the People of Champion and District of the vicinity.  
GEO. L. DUPUE, Editor.

Woman to Dietitian Expert: And, Doctor, do you think Cranberries are healthy?

Doctor: I've never heard one complain.

McDougall Bros, Charlie and Alex, are both highly satisfied with their results at the Calgary Bull Sale, winning a second and fifth prize in their classes and averaging over \$500.00 per head on the eleven head they showed, one bringing \$800.00. Alex says: "I'm sure about what."

Charming and Optimistic Daniel: "Now, before we start on this ride, Mr. Jenks, I want to tell you that I don't drink, smoke, flirt or pet. I object to roadside parking. I visit no saloons, and I fully expect to be home by

10 o'clock." Jenks: "Your mistake. 'No'—about starting for this ride."

Bobby Gardner was the lucky boy to draw the Shetland Pony at the Community Hall dance on Monday.

A farmer who had recently moved from one state to another observed that wherever he went he found a machine service there ahead of you. We hope none of our customers will move away, but if they do they'll be glad they brought equipment that is sold and serviced everywhere.

If a man enters a speak easy very optimistically he is sure to come out very misty optically. One sign of spring is

when a dentist tells you to open your mouth and then absent-mindedly says to his assistant, "Give me my niblick."

Wm. Penn Motor Oils, "Still the Best."

"Have a good time, Bill, and let her conscience be your guide."

"Waiter! Are you hard of hearing?" "Possibly, sir, possibly."

"I thought so. I asked for liver, not leather."

"What makes you think that's a gold digger?" "She called me 'mine' and then did me dirt!"

### Local and General

Miss Agnes McLeod is home on a visit to her aunt, Mrs. Nell McLeod, from Calgary for a month.

D. Whitaker and family of Lethbridge motored here on Sunday, to visit Mr. and Mrs. J. C. Anderson.

Mr. and Mrs. G. A. Manhard motored to Blackfalds to spend Easter with their daughter, Mrs. Stevenson.

Mr. and Mrs. Milford Sisson, accompanied by Miss Mary Sisson and Miss Flo Gill, are spending the holidays in Calgary.

The new manager of the Canadian Bank of Commerce, H. T. Lamont, formerly of Wembley, Alta., arrived here on Monday night to assume his new duties.

The teachers left on Thursday, April 2, Miss McFall and Miss Cameron going to Kirkcaldy, Miss Archer to Calgary, Miss Melrose to Gleichen and Mr. Farries to Trochu.

On good Friday Mrs. Lucia and Mrs. F. Clever drove the members of Mrs. Lucia's Sunday class to Nobleford, where the young folks were delightfully entertained.

G. F. Smith returned home from Calgary, where he had been in the Holy Cross hospital, and is both looking and feeling fine, although his strength is slow in returning after his long siege of illness.

F. F. Fox a former resident in this district, but for some years living nearer Vulcan, was a visitor to town on Tuesday. He has sold out his extensive farm equipment and is waiting the recovery of a daughter in the Vulcan hospital before moving to Eastern Canada.

Mrs. J. N. Beaudier addressed the girls of the graduating class at the Clarendon School of Agriculture last week. She stressed the fact to the young women that future days will challenge them to develop the qualities of sportsmanship, and suggested courage, courtesy, optimism and service as requirements that were as essential for women as for men.

The Women's Institute will hold a sale of articles made from 100 lb. flour sack, afternoon tea and tencup reading, in the old drug store building on Saturday, April 18th. Come and buy some useful articles such as luncheon cloths, pillow cases, aprons, cloths, bags, kitchen window curtains, etc., at very reasonable prices.

Mrs. Douglas of Calgary was an Easter guest at the home of Mrs. G. M. Campbell.

"The Overland Telegraph" a real western thriller, with Tim McCoy Saturday Night.

According to an old saw everyone must eat a peck of dirt. Up-to-date this should be a bushel.

Deeskin work Gloves, Watson's make, the biggest value you ever got for \$1.50 at Campbell's.

Principal R. I. Baker attended the educational conference at Edmonton during the week, Mrs. Baker visiting in Calgary while he was away.

Mr. and Mrs. Geo. Harper and children of High River are spending the Easter holidays with Mrs. Harper's parents, Mr. and Mrs. John Cook.

K. R. McLean, R.O., of McLean & Anderson, Sight Specialist 224-8th Ave West, Calgary will make his monthly visit to Champion Friday, May 1st, at the Drug Store.

"Fathers Son" that's the feature for Champions first talking picture of the new season on Thursday Night April 16th. See a very fine talking picture on our new screen and new equipment. Better than ever.

The high school students taking Grade XII in Calgary spent Easter at their homes here. These included Ruby Alder, Helen Holm, Edna Orr, Irene McCullough, Rheta Campbell, Don Stephenson, and Donald Bond.

The Easter tea and bake sale held on Saturday, April 4th, in the old drug store building under the auspices of the Ladies' Aid, was highly successful, something over \$50.00 being realized. Those in charge are to be congratulated on their success.

Miss Viva Hopkins was leaving for Los Angeles, Cal., after the dance on Monday night. When she was getting on the train she fell, injuring her knee so badly that she was forced to return to her home. It is understood it will be some days before she will be able to proceed on her journey.

Irish Cobbler and Early Ohio seed spru is at Campbell's.

A large number of ladies motored out to O. Harper's residence on Wednesday evening, when Mrs. Harper was a bridge hostess. The honours were won by Mrs. G. M. Campbell, Miss Mary Bowman and Mrs. F. Caldwell, consolation. Out of town guests were Miss M. Cameron of Calgary and Mrs. Geo. Harper of High River.

### Remember the Date Friday, April 10th

On Friday night the Carmangay players will present "Anne, What's Her Name," in the Community Hall. This will be one of the last opportunities of this kind this season and should be taken advantage of by all who can possibly attend "The play's the thing."

### WHAT'S THE AVERAGE TIRE MILEAGE ON YOUR FLEET?

WHATEVER mileage your business cars or light trucks have been obtaining from standard tires, they'll surpass many times before the extra cost with Goodyear Heavy Duty Tires. Due to their special larger, stronger, Supertread carcass combined with super-service All-Weather Tread, Goodyear Heavy Duty Tires withstand the punishing effect of such service to a degree which is earning praise from all over the country.

We're proud to let Goodyear Heavy Duty Tires. Let us put a set on one of your cars or trucks.
